Sheriff Tells Benroth Where To Get Off

WOULD STAGE STRIKERS PARADE

When J. R. Benroth, strike leader for the "Relief Workers Union" asked Sheriff Frank Bennett for permission to stage a strikers parade on the streets of Grayling on Tuesday, he was told that "It is the best thing for you to lay off and let the people work who want to do so."

"The people elect me sheriff of this county to guard them and their property rights and I'm going to do so."

Sheriff Bennett said that if he (Benroth) tries to make trouble for those who want to work that it is all set for him. If he and his crew want to come down here to make trouble we will take care of them.

Continuing he said that the people who want to work will have our protection and we won't stand for any interference from Benroth or his crew.

Replying Benroth said, according to Sheriff Bennett, that if you won't stand by us then he was going to quit, and that he was going to get to the head of the line and go to Gladwin where he would get to work, and that he would dispose of his sheep.

This appears to be the culmination of a strike staged by the "Relief Workers Union of Crawford County" starting on September 20th when a demand was made upon the local and State Welfare administration for the following:

1—A new welfare administrator.

2—Increased wages.

3—Assurance that we will receive our share of federal commodities furnished thus state.

Officers of the state welfare administration waited upon the strikers with the idea of coming to some satisfactory understanding. Francis Reagan, state field representative gave the men every assurance that an earnest effort would be made to satisfy the men and requested that they meet him individually and relate their grievances. He held the first meeting at Frederic where he interviewed many of the strikers, and intended to do so in each township wherever there was contention. However this did not go far before the strike leaders refused to try to deal with Reagan and wired the state department to send someone here with whom they could deal. They would meet him here the following Monday, and if they did not comply with the demands of the strike leaders they would proceed to organize unions in the bordering counties.

While only a comparatively few of the county's welfare workers had joined up with the strikers, Mr. Reagan announced at the time of the first meeting that he had called off all welfare work until such time as the matters could be satisfactorily settled. According to that stopped all welfare work in

the county. The men were being paid 30c an hour in cash.

Apparently the state department declined to comply with the demands of Benroth and his leaders for they failed to have the desired representative here to act in place of Reagan. If organizations were formed in neighboring counties, as threatened, we have not heard of it.

In the mean time with the men not working, families were cared for with necessary food and clothing but were not provided with money. Many families felt the need of cash and men wanted to go to work and recently some of those residing in Grayling petitioned the village council to use their efforts to get the work opened again.

Accordingly last week Thursday the local welfare department sent out questionnaires asking some of the men if they desired to begin work the next Monday (Oct. 15th) to reply promptly. The response was so great that some of the projects were opened that day.

According to Sheriff Bennett, Benroth tried to keep the men from working. And accordingly he planned to stage a strikers parade here yesterday. Sheriff Bennett's prompt action and reply seems to have stopped any such proceedings and those men who desire to work should now be able to do so unmolested.

It appears that nothing has come out of the strike that might be of advantage to the strikers. There has been no change in the local administration management and we understand there has been an increase in wages. As far as an equitable distribution of commodities coming into the state for welfare purposes, we understand that Crawford county as well as all other counties, have always been equitably dealt with.

We feel that 30c an hour for labor is hardly enough to meet the actual needs of the average family, and we believe that had this matter been peacefully presented to the administration and the men continued upon their jobs that an increase would have been granted. As it is many splendid citizens who desire to work, have been idle for nearly a month.

DIRECTOR OF CHILD HYGIENE TO GIVE LECTURE

Dr. Lillian R. Smith, director of Bureau of Child Hygiene of the Michigan department of health will be in Grayling next Monday and in the evening will give a lecture at the American Legion hall. The meeting is called for 8:00 o'clock, and all those interested in maternity and child health are invited to be present. Doctor Smith prefers that this meeting be limited to women as she feels that they will feel more free to ask questions. All mothers as well as the younger women of the country are invited.

Following Doctor Smith's address, a discussion dealing with the subject will be had.

The American Legion Auxiliary is sponsoring the meeting and hope for a good attendance. This meeting will take care of the first of the county health and welfare meetings that are held during the winter. The Auxiliary ladies will serve refreshments.

Rogers' Finest Work In "Judge Priest"

Henry B. Walthall Is Acclaimed in Return to Screen in Part of Minister

FOX

The Characters:
Judge Priest.....Will Rogers
Jerome Priest.....Tom Brown
Ellie May Gillespie.....Anita Louise
Rev. Ashby Brand.....Henry B. Walthall
Bob Gillis.....David Landau
Virginia Maydew.....Rochelle Hudson
Billy Gaynor.....Roger Imhoff
Flem Talley.....Frank Melton
Sergt. Jimmy Bagby.....Charley Grapewin
Senator Horace Maydew.....Burton Churchill
Mrs. Caroline Priest.....Branda Fowles
Juror No. 12.....Francis Ford
Aunt Dussey.....Hattie McDaniel
Jeff Pindexter.....Stepin Fetchit

By Len G. Shaw

It is not enough to dismiss this picture with the mere statement that it's a natural for Will Rogers. It is true that the character of Judge Priest fits the slow-spoken even-tempered actor like the proverbial glove.

But having slipped into that glove, Rogers is not content, as has sometimes been the case, to be just himself. He builds the part up until it becomes outstanding in his long list of screen portrayals. Indeed, there does not come to mind another quite to touch it in quiet dramatic intensity, or quaint humor. It is embellished with little dashes of humaneness that warm the heart and sometimes make you almost forget in admiration of this homespun figure the romance which winds its way so pleasantly through the story.

And for once Rogers has real competition in the person of Henry B. Walthall.

The Little Colonel of "The Birth of a Nation" comes back to the screen to register mightily as the minister upon whose disclosure the denouement rests. If you do not thrill to that courtroom scene in which Walthall, quietly, unemotionally, but convincingly, recounts the heroism of the man on trial there is something radically wrong with your emotions.

Rogers, of course, is the straightforward, unassuming judge, with a greater grasp of common sense than of Blackstone, who fosters the romance between his nephew and the mystery girl of the village, against the opposition of the boy's ambitious mother.

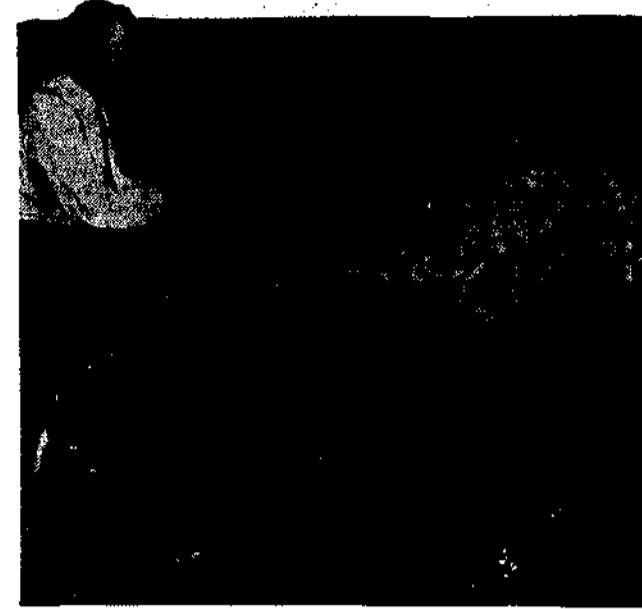

In so doing after stepping down from the bench at the demands of a bombastic political opponent, he clears up the girl's clouded parentage with a thoroughness that brings a stirring climax.

Long was sentenced to serve from two to five years in Jackson prison, and Mrs. Deckrow from nine months to five years in the Detroit house of correction. They were taken away this morning. The young woman leaves behind four young children besides her husband. Long came here with his wife from Mississippi.

Long was sentenced to serve from two to five years in Jackson prison, and is in certainly a fair plan, especially since Crawford county furnishes a large part of the fishing and hunting area of the state. We should have some returns from the value of state owned land within our county.

Hit Run Drivers Get Prison Sentences

Judge Smith held court here Wednesday morning for the purpose of arraigning Charles Long and Katherine Deckrow on a charge of "leaving the scene of an accident." Both appeared in court and after hearing the prosecuting attorney read the charge that was filed against them, each plead guilty.

The accident occurred on September 6th when the car owned by Long and driven by Mrs. Deckrow, struck and severely injured Alderman Al Roberts near the AuSable river bridge. It is reported that both Long and Mrs. Deckrow were intoxicated. Mr. Roberts was picked up soon after and taken to Mercy hospital and it was found that he had suffered the fracture of six ribs and was severely bruised and injured.

Long was sentenced to serve from two to five years in Jackson prison, and Mrs. Deckrow from nine months to five years in the Detroit house of correction. They were taken away this morning. UPPER PENINSULA CANDIDATE for AUDITOR

Sheriff Frustrates Jail Break

Sheriff Frank Bennett stopped in Monday to break up the plans for a jail escape when he discovered evidence of such attempt by prisoner Henry Leaman.

The latter had worked a combination cell lock and obtained a strong iron rod with which he pried off one of the window grates and apparently was awaiting nightfall to make his escape.

The combination lock was one that automatically locked and unlocked the entire cell block and hadn't been in use for several years past, due to the loss of the combination. Mr. Bennett had tried unsuccessfully ever since he has been sheriff to find the combination and had offered reward to anyone who would open the lock. Several had tried but failed but young Leaman seemed to be the master mind to do the trick. He didn't stop with solving the combination but when he got it open he smashed the whole works, rendering it useless.

Leaman is serving a 30 day solitary confinement sentence for breaking and entering.

STREETS BEING RE-SURFACED

Through the cooperation of Village officials, the State highway department, and the County Road Commission, the village streets are being re-surfaced with a three inch course of road gravel. For some time the highway department has had a gravel plant in operation taking out material for the Piney road in Maple Forest township, and arrangements have been made whereby this plant will work for a limited time for the village. Portions of Ionia, Lake, Ono, Oh, and Aiger streets have already received this treatment and it is hoped to extend it to as many others as is possible in the short time during which material may be obtained.

The cost of this operation is taken care of by returns from the gasoline and weight tax revenues which are returned to the village through the County Road Commission for use in street maintenance and improvement. As far as is possible the council hopes to defray all costs of street upkeep from this source of revenue.

GAYLORD-GRAYLING AT IT AGAIN

Gaylord and Grayling, long traditional foes in many athletic departments appear to be adversaries in an entirely different contest, it is true, but one that will incorporate plenty of endeavor and work on the employees of the Michigan Public Service Company of both towns.

Local manager Don Reynolds of the Grayling store has just accepted a challenge issued by Al Hanes, manager of the Gaylord store to fight out a lamp-campaign duel from October 15 to November 15. The losers to treat the winners with a Thanksgiving dinner.

Gaylord it is true has the edge with three employees to sell lamps, but the local boys are willing to discount this handicap on the basis of good sportsmanship.

COL. HOGARTH DEAD

George R. Hogarth, director of the State Conservation department, died at his home in Lansing Monday night. He served as the head of this important state department since his appointment in 1927 by Governor Green.

But we people of Grayling rather think of him as a National Guardsman. His annual visits here with the guard for the past 20 years won him a large number of intimate Grayling friends. He held the rank of lieutenant colonel in the adjutant general's department. He always held a warm spot in his heart for Grayling and Grayling people. In his passing we have lost a good friend; one who has left with us many pleasant memories of his visits here. He was born in Detroit in 1886. He is survived by the widow and one son, Robert, eight.

Peterson then welcomed the Zoller family to the community and to the church.

Throughout the evening the band under the direction of Mr. Edward Clark played several selections which added to the pleasure of the evening.

The reception was sponsored by the Ladies Aid of which Mrs. Nels Corwin is president.

IT MAKES US LAUGH!

When Arthur J. Lacy, democratic candidate for governor comes out and tries to smear the reputation of Frank D. Fitzgerald, republican candidate for governor, it is so comical that it makes us laugh. If this isn't the rottenest kind of dirty politics then we don't know what that kind of politics really is. Mr. Lacy may think he is getting away with that rot but we don't believe the people of Michigan are going to be fooled by that kind of campaigning.

WHAT! NO BIRDS?

Disappointment among local and visiting hunters because of the scarcity of partridge seems to be the sentiment among most of them. In fact we have heard of but one hunter who bagged the limit of 10 in the openin' day—Monday. Bags of one to birds seems to be about the average, while many return with empty game bags.

Conservation Officer Harry Souders says that in his opinion there are fewer birds here now than there were last spring. He claims that just as it is in many varieties of fruits, birds run in cycles and that he believes this is the declining of the bird cycle and that after another year or two birds will again be plentiful.

Carl Mickelson is of the opinion that many birds are affected by lice and ticks and that this was nature's remedy for lice and tick trouble. Both theories seem reasonable and quite likely both causes have contributed to the scarcity of birds this season. Mr. Mickelson is a student of nature, especially with wild life and his opinions bear strong weight.

Fourth Forestry District

The ping pong tournament played Saturday at the high school in Grayling was won by Camp Higgins Lake. Arnold Dedoes of 672 eliminated all other contestants. A handsome certificate which can be framed and hung in its recreation building will be presented to 672.

Here is real news! 15 men from 672 have started class work in the Freshman College which has commenced at the Roscommon High School under the supervision of the Central State Teachers College of Mt. Pleasant. A college standard of work will be maintained and college extension credit granted. Each term will consist of 12 weeks work.

Lt. Allen of Camp AuSable is away on leave and Dr. Raff is momentarily expecting the necessity of wiring for an emergency leave. His anticipations are making him so exuberant that he frequently and without any warning goes into a dance of sorts. His brother officers are considering cashing in on this lately exhibited and unsuspected talent by entering the good doctor in the next Amateur Night in Grayling.

Among the boys who joined the OCC trek to the Century of Progress was "Dixie" Oliver of Camp Higgins Lake. He stayed at the YMCA, rather than at a more flashy hotel and here is a case where virtue was not its only reward—General Bolles, as Dixie reports, footed the bill of all boys who made their abode at that Christian institution.

He is survived by his sisters, Mrs. Lloyd Gierke, Mrs. Middle LaMotte, of Grayling; Mrs. Beatrice Simpson, Moorcroft; Mrs. Henry Bucholz, Saginaw, and Mrs. Nels Sorenson, of Keokuk, Iowa. Interment will be at Phelps, Wisconsin.

About four o'clock Saturday morning, while making his rounds, Night Marshal DeFrain discovered smoke coming from Spike's Beer Garden. He called the owner by telephone and together they hurried to investigate, discovering that the container back of the counter in which is thrown cigarette butts had caught fire. Fortunately the fire was discovered in time and except for a small hole burned in the floor and clouds of smoke, very little damage was done. They did not find it necessary to call the city fire department.

Mr. and Mrs. Frank Barnett had as their guests for the week-end the former's daughter, Mrs. Glenn Pierson, of Tecumseh, and Mr. and Mrs. Fred Pomerville, of Ferndale. They also have as their guests for the bird season Mr. and Mrs. William Chaffey, of Walled Lake.

Mr. Sorenson hasn't decided what he will do after retiring from the hotel business.

A crew of men have been busy for the past week excavating the waterworks pipe line on U.S. 27 and lowering it to below the frost line. That line of pipe as well as others in the city were laid far too close to the surface, thus causing a lot of freezing in winter and incurring a lot of expense to the village for thawing out and repairing the breaks. In some places the mains were to within 3/4 feet from the surface. The grading of Cedar street may have taken off some of the surface covering but that was but slight. It is hard to imagine anyone laying water pipe lines in this cold region of Michigan so close to the surface. This mistake has cost the village taxpayers a lot of money for repairs and now for relaying.

The Ladies Aid will serve their annual chicken supper at the church next Thursday, October 26. Members of the Woman's Home Missionary society will meet at the church next Tuesday evening for the purpose of organizing a Queen Esther Circle. Men of great importance in the government of states in Europe were removed from the scene by the assassin of the assassin, Petros Kalem, who slew King Alexander of Yugoslavia and Louis Barthou, French foreign minister, in Marseilles. "Another Sarajevo?" was the question in every mind, and, indeed, there was some slight danger that the crime would start another great war. Alexander was just beginning a "good will" visit in France, which was closely tied up with Barthou's plan for accord between France and Italy, and Barthou was soon to go to Rome to further the scheme. Yugoslavia is allied to France, but is not at all friendly to Italy, and Alexander hated Mussolini personally, believing that the duce gave moral support to the rebellious Croats. But the king did not want war, and was willing to help along the proposed accord if it was not inimical to his country.

If trouble does follow after the assassination it probably will start with revolution in Yugoslavia. Only by assuming and exercising dictatorial powers was Alexander able to keep peace in the hodgepodge that comprises the Kingdom of the Serbs, Croats and Slovenes, otherwise Yugoslavia, and it is not certain that there is anyone else who can do it. Civil war might tempt some other nation to intervene and grab parts of the realm, and in that case a general conflict might be precipitated.

Alexander's eldest son, Peter, who was at school in England, was promptly proclaimed king and, being only eleven years old, will rule under a regency of three men who were named in the political will of the murdered monarch.

Whether these three can hold the kingdom intact is a question. Only the Serbs are really loyal to the royal house, though all the people had admired the strength and bravery of Alexander, whose life had been attempted four times before.

The death of Alexander was held especially important to Germany by the statesmen of that country, for they had looked to him to curb to a considerable extent the alleged ambitions of Mussolini. He was considered a close friend of the reich and a potential ally. France was not only worried by the possibility of trouble in the Balkans, but also deeply mourned the death of Barthou, one of her ablest statesmen and, indeed, one of the ablest in Europe. He had been working assiduously on his pet scheme for a security pact for eastern Europe; and, although Germany had scored him for trying to build a diplomatic and economic ring about the reich, last June he personally negotiated an accord between France and Germany that was believed to give assurance of peace.

Petros Kalem, the assassin, who was quickly killed by the French police, was found to have been traveling on a forged Czech passport. Two men who accompanied him on his mission of death were captured near the Swiss border, and another was being hunted down in Fontainebleau forest. Where they come from and what organization was back of the assassinations had not been learned at this writing. The police thought they belonged to a secret Macedonian revolutionary society.

CIVIL war in Spain was precipitated by the radical elements, starting with a 24-hour general strike which was declared by the Socialists and Communists in answer to the formation of a conservative government by Premier Alejandro Lerroux under the domination of reactionary Catholics. Within a few hours bloody conflict broke out in many regions, and Catalonia, the northeast corner of the country, decided this was the time to establish itself as an independent republic. Luis Companys, president of the state announced: "Catalonia is breaking off relations with the rest of Spain. I demand complete discipline from every one." He called on Gen. Domingo Bate, commander of the garrison at Barcelona, to swear allegiance to the new regime, but that wily soldier spurned for time, and before an hour had passed he received orders from Madrid to declare a state of siege. His troops battled with the Catalans, and soon both Companys and his fellow leaders cooped up in the presidential palace. Reinforcements for the government forces arrived swiftly by land, sea and air.

Then the artillery opened up, and after the palace had been thoroughly shelled, Companys and his colleagues surrendered, and were marched to a prison ship in Barcelona harbor. The revolution was over and the new Catalan republic was out of existence. It was rumored the collapse was partly due to a dispute between Companys and former Premier Manuel Azaña, a co-leader in the revolt. Azaña was found in hiding and arrested.

Surrender of Companys did not end the fighting in northern Spain, for the revolutionists in various re-

gions continued their desperate efforts, but the government considered the revolt really had been suppressed. There was no telling how many had been killed or wounded, but certainly the casualty lists were

Question Box BY ED WYNN The Perfect Post

Dear Mr. Wynn:
I just received a letter from my nephew who lives in England. He writes me that his wife is suffering with "water on the brain." Can you tell me what that means?

Sincerely,

U. TELLIMEE.

Answer: When a woman has "water on the brain" it simply means she has a notion (an ocean) to her head.

Dear Mr. Wynn:
I live in a boarding house. I pay \$20 a week, but the food they serve is not fit for a pig to eat. What shall I do?

Truly yours,

I. BETTY KNOWS.

Answer: If the food is really not fit for a pig, just sleep there and get your meals some other place.

Dear Mr. Wynn:
I got a job last Monday in a department store in the shoe department. At the end of the first week I was discharged. Can you tell me why? I swear to you I didn't do anything.

Sincerely,

I. STALL.

Answer: That's why you were discharged.

Dear Mr. Wynn:
My birthday was January 4. My girl sent me a pair of gloves for a present, but they are too large for me. What shall I do?

Truly yours,

A. B. SEEDEE.

Answer: Just pour about a hair ounce of Scotch whisky on them. If it's the kind of Scotch they're selling now, a half ounce will make them tight.

Dear Mr. Wynn:
My wife returns home next Saturday from the hospital bringing with her our triplets just five weeks old. I am surprising my wife, as I have just had a nursery fitted out for our new babies. It is a beautiful room and I would like to have a suitable name painted on the door instead of "Nursery." What do you suggest?

Yours truly,

POP. PAH.

Answer: Three babies, five weeks old, in one room? If I were you I would call it the "Rawl-room."

That the first regular baseball game was played at Hoboken, N. J., June 19, 1846, between the Knickerbocker club of New York and the New York club (a picked team). Only four innings were played, as under the rules then existing, a game was won when either team made 21 aces (runs) or over on even innings.

Lee and Grant Fight on Same Side

WHENEVER the baseball team of St. Albans' school in Washington has a game, two descendants of Gen. Robert E. Lee and Gen. Ulysses S. Grant are to be seen fighting for the same cause. Lewis Vandegrift Lee of Virginia (left) is a descendant of the great southern commander, and Charles Scribner Grant of Chicago (right) traces back to the equally great Union general. MERCHANT PARTY SHOWS A SUCCESS

Monday night at the Temple theatre the Stout Players opened their first Merchant's party night shows. The opening play was a comedy entitled "Lazybones" and from the enthusiastic audience and complimentary remarks after the comedy the Monday night shows at the Temple theatre are headed for a season of unquestionable success.

The Stout Players are to appear each Monday night at the Temple theatre. Monday, Oct. 22, they will present a lovable, laughable comedy entitled "The Talk of the Town." This is said to be one of the most popular plays that the company presented during their three consecutive summer seasons at Battle Creek, where they presented over one hundred and twenty-five plays.

Special vaudeville will also augment the shows. Merchants bargain tickets may be obtained free from the merchants of Grayling whose names appear in the Stout players advertisement. With these tickets adults can secure a ticket for only 15 cents and children 10 cents. Patronize our local merchants and secure the bargain tickets.

It is the only breed which originated in this country and there are more here than in any other country in the world. There are more registered and shown at dog shows and more sold than any other type.

Handicap to Mt. Everest Ascent

The conquering of Mt. Everest is hindered because the peak, called in Tibetan Chomo-lung-ma, Goddess Mother of the World, is an object of sacred worship. The Rongbuk valley that leads to the glaciers of the mountain is reserved as the retreat of the Holy Hermit alone. The area is one of complete seclusion from the outer world.

SCHOOL AFFAIRS

Friday and Saturday, October 19-20, Teachers Institute will be held in Saginaw and Lansing. In the past it has been the policy of the staff of Grayling High school to either attend institute or remain and hold regular classes. This year the same policy will be adhered to, with some of the grades in session as usual, and the entire high school on for the day. The opportunity to hear the foremost educational leaders is given to the teachers at these annual meetings. The convention is divided into sessions, and each teacher is able to view the progress of the subject in which he has particular interest by listening to the speakers, attending the various classes, and entering into the discussions.

There are also general sessions in which both parents and teachers participate.

The custom of periodical school parties, begun last year under the alternate management of junior and senior classes will continue this year much the same as last, except that each party will be conducted by a committee formed jointly by members of both classes. The first party under the co-management, and incidentally, the first party of the year, was a great success. Everyone turned out last Friday evening for a good time. Dancing began about 8:30 and lasted until shortly after 11:30.

A very good 5-piece orchestra was obtained for a price low enough to enable the management to keep the price of admission down to a point where this need not be one out. The floor, altho rather rough at first, due to prolonged disuse for dancing purposes, was treated and soon became as smooth as could be desired.

These parties, altho never a money-making proposition, are always great fun, and everyone is looking forward to them throughout the winter.

The second game of the now famous Grayling-Frederic series, went to Grayling last Thursday evening to the tune of 18-8.

Our Dean brothers (Smock and Chalker) especially Chalker, who retired the last six men by the strike-out route, were a great help in piling up that comfortable lead.

While we're still "seein' stars" it's only fair to mention Brown and Ferguson. Both those boys have an eye on the old apple, and a yen for the fence, altho in this case there being no fence handy they tried for the river.

Yes sir, folks, this is sure one great series. If you could take time off to go clear down to Detroit just to see the Cards and the Tigers push that old pill around, boy, now I'm tellin' you, you can't afford to miss this chance of a lifetime—only 9 miles away with admission free, and what I mean, it's worth a million.

Folks, take a look at your calendar. Here it is the middle of October. Does that mean anything to you? Of course it does. Bird season opened Monday, Halloween's only a short ways away. It won't be long to winter sports.

Everything as it should be. Ah, "Ain't life grand?" "What I'd give to be back in school again?" Yes? So you think? Well, we'll admit we entertained many of the same shots ourselves—until Tuesday when Mr. Poor posted a notice on the bulletin board—such a small notice but oh so full of meaning. "Six weeks exams are due Monday and Tuesday, October 22 and 23."

To parody a once popular song: "Yesterday's sunshine is turning to rain, Yesterday's loafing is bringing me pain."

Sports Editor, Field and Stream

MOST beginners in upland wing shooting make the mistake of trying to use a gun too heavy for their strength. Shooting quail, woodcock, grouse, pheasant and mallard calls for fast, snappy action. The game bursts from cover, usually at the most unexpected moment. When this happens in dense cover, as it most frequently does, one must be able to swing his gun into position instantly and shoot on the flash.

If your gun weighs too much for your arms you simply cannot do effective work. The over-weight in your heavy gun not only tires you out before the day's hunt is done, but it gives you an ever-present sense of uneasiness. You lack composure. You lose that confidence that is so necessary to good shooting—the feeling that you can hit anything that gets up in front of you. Down in your lower nerve centers always lurks the fear that you will not be able to swing your gun into action fast enough.

The result of such fear is usually a hurried, uncertain shot. Time and again you shoot and miss. Yet you do not understand why you miss. You may have shot over, and under, or wobbled right or left. But until you learn to call your shots, to know why you are missing, you can never progress very rapidly towards becoming a crack wing shot.

The good shot is practically never in doubt about a miss. He knows where he shoots. When he makes a mistake it is frequently because he misjudges the rise of the bird and consequently under-shots. Or he fails to take into account the bird's speed in a sudden swerve to right or left and shoots behind his target.

It is little errors like these that first led gun makers to add a second barrel, or a magazine with extra shells, to their guns.

Using a gun that is too heavy is one of the chief reasons why the poor field shot continues being a poor shot—indeinitely. Point your finger at any object and you not only point with accuracy but with effortless ease. Nature beautifully proportioned your hands and arms to the weight of your body. But suppose your pointing hand suddenly had five pounds of dead weight added to it. Your pointing would not be near as quick or as accurate. The same thing is true of your gun. If you want to hit what you shoot at with reasonable regularity, see that your gun weight is proportioned to your weight.

The average upland gunner has no business with a gun that weighs more than about 6½ pounds. Remember also, that the weight of your gun should be proportioned to the charge it shoots. A 6½ pound 12 gauge gun is just a trifle too light to shoot heavy loads. Especially for the beginner. It kicks like a marmill, and before you know it you may acquire that worst of all shoot-ers curses—the flinching habit.

The 10 gauge is an admirable gun for upland work. But best of all, especially for the beginner, is the 20 gauge. It is a powerful and deadly gun. Shooting the ounce loads it has 80 per cent of the maximum killing range of the 12 gauge, hitting the dead certain killing range of the 12 gauge at 50 yards—and that is all you can expect of it, claims to the contrary notwithstanding—the 10 gauge has a range of 40 yards, and the 20 will kill with absolute certainty at 40 yards. So what is the sense of toting a 7½ to 8 pound 12 gauge to the field for a mere 10 yards extra range?

Especially since the lighter weight 20 can be brought into action quicker and thus reduce its handicap over the larger gun. And especially, too, since more than 80 per cent of all upland game is killed within 30 yards.

Cutting your gun-pounds and you will find you have more comfort—and you will get more game.

After all, the shot gun is distinctly a short-range weapon that calls for fast, snappy action in handling it. Try a 6 to 6½ pound 20 gauge. See how quickly it will help you gain confidence in your ability to use it. See how quickly your shooting improves.

No Wonder He's Drinking Four Sodas

OLIVER THOMAS McCARTHY of New York, seven years old, can afford to drink all the sodas he wishes, for he held a ticket on March 10 in the English derby in the Irish hospitals sweepstakes, and Oliver finished second—it brought Oliver the handsome sum of \$75,000.
